Firm Org Chart

This document shows how the firm is organised into practices and teams, who leads each by role, and approximate headcount ranges. It was prepared by Firm Operations on 4 May 2026 and revised on 14 September 2026 to reflect the new Data and Analytics practice structure. No individual names are listed.

Practice structure

Practice or team	Led by	Headcount range
Executive office	Managing partner	5 to 10
Consulting practice	Practice leader	120 to 160
Technology delivery team	Delivery director	60 to 80
Data and analytics team	Data director	30 to 45
Design and experience team	Design director	15 to 25
Project management office	PMO director	10 to 20
Quality and testing team	Quality lead	10 to 15

Shared services

Function	Led by	Headcount range
Finance	Finance director	15 to 25
Human resources	HR director	10 to 20
Information security and IT	Chief information security officer	15 to 25
Operations and staffing	Operations director	10 to 15
Learning	Learning lead	3 to 6

Reporting lines

Every employee has a line manager, a counselor for career guidance and one or more engagement leads for client work. Engagement leads report on delivery to a practice leader. Changes in the September 2026 revision moved analytics roles from the Technology delivery team into a separate Data and analytics team.
